PROFILE

I studied Marketing (Advertising), and I have a background in graphic design and inbound marketing. When I worked with digital products, I found my passion for user experience and I moved to UX/UI. As a Product Designer and UX Researcher, I want to build products that solve real problems and add value in a caring and responsible way.

EXPERIENCE

UX Researcher
Jun 2026 – now

Eviden · Instituto de Informática, I.P. — Lisbon, Portugal

- Support the management and strategic vision of UXR Ops.
- Make sure that research methods and studies are well documented.
- Create and improve templates, reports and good practice documents.
- Help to organise internal knowledge sharing.
- Follow research, interviews, usability tests and workshops — planning, moderation and analysis.

UI/UX Designer
Aug 2023 – Jun 2026

Eviden · Instituto de Informática, I.P. — Lisbon, Portugal

- Ran research with Segurança Social Direta users to understand their needs and behaviours.
- Worked in multidisciplinary teams and shared design insights.
- Took part in the concept, prototyping and usability testing phases.
- Collected feedback from users and stakeholders all the time to improve the interfaces.

Product Designer
Nov 2021 – Jul 2023

Boavista Tecnologia — Fortaleza, Brazil

- Understood product specifications and user psychology with data (Hotjar) and interviews.
- Led Double Diamond and Lean Inception from the start to the end of the delivery.
- Documented processes in Notion to help communication between squads.
- Created wireframes and medium and high fidelity prototypes, tested in Figma and in interviews.
- Took care of the design system: added new components and followed the style guide.

Digital marketing analyst
Dec 2017 – Nov 2021

Boavista Tecnologia — Fortaleza, Brazil

- Analysed RD Station data to understand and convert leads.
- Built strategies and automation flows to create SDR opportunities.
- Supported the visual identity of landing pages.
